whether Ireland is parting with its people at all.

How long the present state of things in America is to last, no one can foresee. While in all the great cities thousands of men are out of work there can be no revival of immigration. Working men will prefer to be content with a little in their own hands, to crossing the Atlantic to compete in every city of the Union with thousands of men who can get no work at all. The American crisis has already outlasted the calculations even of the most desponding. It has been going on with increasing severity for four years, and it is not over yet. Nor can any one fix a date when the United States will once more prove an attraction to immigrants.

THE PREMIER.—We learn that the health of the Honorable the Premier is somewhat improved during the last day or two, and that he entertains hopes of being in his place in the Legislative Assembly in the course of next week. His friends, however, are extremely apprehensive that, if he should attempt to leave his present bed, it would be a more serious relapse should take place.

DIRECTOR COURT.—Monday, May 7.—Stevens v. Gaffney, Johnson v. Howe, Paul v. Kelly, Anderson v. Paul, Kelly v. Cresswell, Lee v. Plunk, Banks v. Bates, Banks v. Dickinson, Spurr v. Rotherington, Murray v. Stevenson, Hamilton v. Burton, Wilson v. Campbell, v. Cresswell, Quick v. Evans, v. another v. Lewis, French v. McKean, Laws v. Board, Robinson v. Anderson, Robinson v. The Mayor and others, Gannon v. Gannon, Marshall v. Driscoll, Havel v. Barrett, v. Graham.

SUPREME COURT.—Business this day.—Jury Court: Chester and another v. Houston, part heard; Gold v. Reynolds, Davis v. Perrot, Rose v. St. John, part heard; O'Donoghue v. O'Donoghue, part heard; Hewison v. O'Brien, Ryrie and another v. Orr; Doran v. Commissioner for Railways.

WATER SUPPLY.—In the Legislative Assembly, last night, the Honorable the Premier, in answer to a question by Mr. Robertson, said that the report of the Hydraulic Engineer, on the best scheme for supplying Sydney with water, was not yet completed, but that it would probably be ready in the course of the week. He stated that the House in a fortnight from the present time.

HARBOR FORTIFICATIONS.—His Excellency Sir Hercules Robinson, Sir William Jervis, and the Commandant of the Military Forces of the colony (Lieutenant-Colonel Richardson) made a tour of inspection of the batteries on the south side of the harbour, yesterday afternoon.

THE VOLUNTEER FORCE.—We believe there is reason to expect that Sir William Jervis will review the Volunteer Force on Saturday, the 12th of May.

THE UNIVERSITY OF SYDNEY.—Mr. Theodore F. Ormeroy, Fellow and Lecturer of St. John's College, Cambridge, has been elected to the office of Professor of Mathematics and Natural Philosophy in the University of Sydney. Mr. Ormeroy is now on his way to the colony.

ST. ANDREW'S CATHEDRAL.—The following is the order of musical service for Rogation Sunday, May 6th: Magnificat, Kempton in B flat; Nunc Dimittis, Kempton in B flat; Psalms, 138 and 139.

THE WEATHER.—Yesterday morning there was every appearance of continued fine weather in Sydney, but towards the afternoon, the sky again became overcast, and it looked as if a relapse was imminent. In the evening the prospect again became gloomy, and the rain fell heavily, leaving the moon and stars undisputed possessors of the sky, while the wind, which had been tolerably strong, became more moderate. The rain continued to fall, but in the morning it was not so heavy, and the sun appeared for a few minutes. The wind was blowing from the south, and the sea, though still continuing high, appeared to be moderating. The wind was blowing from the south, and the sea, though still continuing high, appeared to be moderating. NEW SOUTH WALES ACADEMY OF ART.—It will be seen from notice in our columns of yesterday, that the pictures at this society's gallery will remain open until the afternoon of Monday, the 14th instant, when it will be closed. On the 15th of the month, the second exhibition will be opened, in connection with the exhibition of the pictures of the Academy of Art. The object of this institution has been mainly to afford an opportunity of disposing of a portion of the pictures exhibited annually by artists in the colony, and to enable artists, who could not, without some prospect of selling their works, be expected to contribute to the annual exhibition. The Academy of Art is established on the principle which has worked so successfully in many centres of population in the United Kingdom, and Melbourne, and the object of the institution is to enable artists to dispose of their works, and to enable artists, who could not, without some prospect of selling their works, be expected to contribute to the annual exhibition.

NANKIN EXHIBITION.—Yesterday afternoon, as the steamer which was chartered to convey passengers and baggage to the City of Sydney was starting for her return trip, she was heavily laden with people, as by some means crossed the river, and the steamer was heavily laden with people, as by some means crossed the river, and the steamer was heavily laden with people, as by some means crossed the river.

VITAL STATISTICS.—The following is an extract from the Registrar-General's report on the vital statistics of Sydney and suburbs for the month of March, and for the quarter ending 31st March, 1877:—During the month of March, 1877, there were 275 deaths, viz., 112 males and 163 females, being 102 more than the deaths of the month of February, and 18 more than the deaths of the month of January. The principal causes of death in this class were: Phthisis, 4; pneumonia, 11; heart disease, 11; and hepatitis, 1. The proportion of zymotic diseases was 22.12 per cent., viz., 61 cases, and of diseases of the digestive system, 18.18 per cent., viz., 50 cases. CAR-STANDS.—A benevolent correspondent writes to complain of the results of his observations of the past few days of the wretched and miserable appearance of hansom cabs, their drivers, and horses, resulting from their constant exposure to the weather, and to the neglect of the owners to have them properly protected. The correspondent states that the hansom cabs are in a state of such neglect, that they are not only in a state of decay, but also in a state of decay.

SYDNEY AMATEUR SAILING CLUB.—A general meeting of the members of the Sydney Amateur Sailing Club was held last night at the Exchange Hotel, and was attended by a large number of the members. The object of the meeting was to discuss the question of the club's finances, and to decide upon the best course to be pursued.

NEW ZEALAND.

By the arrival of the s.s. Easy we have files of New Zealand papers to the 28th ultimo, and from them we extract the following items of intelligence:—

The Chinese natives have been induced to raise the blockade of their river, and it is expected that a complete reconciliation will shortly be effected between them and the Aboia natives. The latter are beginning to feel want of articles only to be purchased from Europeans, and which they cannot procure in their isolation.

The following is a comparative statement of the agricultural statistics of Wellington for 1876 and 1877:—Wheat, 1876, 17,330; 1877, 16,873; increase, 23,292. Oats, 1876, 160,131; 1877, 158,021; decrease, 2,110. Potatoes, 1876, 436,187; 1877, 441,187; increase, 2,000. Potatoes, 1876, 436,187; 1877, 441,187; increase, 2,000.

It is stated that during the recent visit of the Governor to Auckland, the Hon. G. M. Commissioner of Customs said that he saw no reason in bringing a railway to Auckland. He also stated that Commodore Hoskins was of opinion that the harbour was a magnificent one, and should be turned to account.

An association for investigating the phenomena of Spiritualism and discovering what is truth has been formed in Dunedin. About 300 natives were present at the Kaipara meeting. Business was conducted in a parliamentary form. Resolutions were passed expressing the determination of the natives to adhere to the Christian religion and laws, and to become one with Europeans; to give up murder and other heinous crimes; to accept of the law of the land; to recognize the right of property; to accept of the law of the land; to recognize the right of property.

The following is the Governor's reply to the "unemployed" petition, which was forwarded to him by Mr. J. M. L. on the 1st inst. The Governor's reply is as follows:—The Government has received the petition, and has taken it into consideration. The Government has received the petition, and has taken it into consideration. NEW SOUTH WALES.

ALBION.—New South Wales appears to have been snuffed out in the official catalogue of the Philadelphia Exhibition, published by Her Majesty's printers, there is reason to believe that the reputation of this colony is now sufficiently established to make the omission of little consequence. The natural wealth of "the oldest and richest" of the Australian group, its commercial freedom, its pastoral and mineral development, the superiority of its geographical position, the variety of climate, and its progress in manufacturing enterprise, have enabled it to rise above every discouragement and to make for itself a name throughout the civilized world. The advantages which it offers have been set forth in numerous publications, of which the most recent is the Essay on New South Wales by Mr. G. H. R. R. The Government not only published that book, but caused it to be widely distributed, and it has received considerable notice at the hands of the Press. Among the papers that have already come to hand, there are upwards of thirty, published in the United Kingdom, which have directed attention to the Essay in a manner which is likely to have a favourable influence upon the future prosperity of this colony. In the distribution of the work Messrs. TAYLOR and CO. appear to have exercised a wise discretion, and it seems likely that the money spent in the printing of the Essay will not be unfruitful. One of the best notices is contained in the Morning Post. The writer says:—"For a new and undeveloped country New South Wales certainly affords singular advantages and yet greater promise; and if her people continue in the path of progress upon which they seem to have entered with so much ardour, a future of great prosperity must surely be in store for her." In other papers there are articles equally friendly in tone, and without exception, so far as we have seen, the highest expectations in regard to this colony are expressed. The principal figures indicating our population and wealth have been widely circulated, they have been largely read, and a favourable impression cannot fail to have been created with regard to this colony.

The Daily Telegraph says:—"It is impossible to compare the statistics of Great Britain with those of New South Wales as regards land, revenue, commerce, export of home produce, and manufactures, especially in regard to minerals and live stock, without marvelling at the amazing success which has accompanied the spread of Anglo-Saxon civilization over these distant and favoured lands." The Sydney Times remarks:—"The account of the colony is attractive in all respects, especially that of climate, and there is little room for doubt that its future will be brilliant." The United Service Gazette observes:—"Some of Mr. R. R. R.'s figures are startling, and all are gratifying and full of interest." The Daily Free Press (Aberdeen) speaks of the colony in the highest terms as an inviting field for immigration. The Geographical Magazine is very flattering. The Railway News restates many of the salient points. The Mark Lane Express refers particularly to facts relating to our trade, commerce, and agriculture. It adds that New South Wales is honourably distinguished for its free-trade policy. The Midland Counties Herald is struck with the superiority of the climate of New South Wales, and gives a list of plants from all parts of the world which flourish in our Botanic Gardens. The Norfolk News refers to the information as most valuable to intending emigrants. The Irish Times says that the facts "furnish abundant and convincing arguments against the wisdom or expediency of politicians and others, who think our colonies a source of weakness, and would have England out their drift." The Wakefield Express says:—"All information and directions which could be of the slightest interest or use to an intending emigrant—both to the man of money and to the man whose only capital is his labour—will here be found either fully stated in the text, or tabulated in the appendix; while the fact that the book carries with it the name and authority of those charged with the public administration, places it above all doubt and suspicion." The Staffordshire Advertiser considers it as "an invaluable contribution to our knowledge of one of the most important of our colonies." The Newcastle Daily Chronicle, which devotes a column to the subject, says:—"Whatever view may be taken of COBURN'S theory that colonies are but the costly appendages of an aristocratic Government, their gradual development and the brilliant future apparently open to them are subjects of engrossing interest. This in a marked degree is the case with New South Wales the mother colony of the Australias. Slowly but surely, if the facts and figures cited by Mr. R. R. in his Essay upon the colony are to be relied upon, New South Wales is gradually growing up to fulfil the prognostication of her first Governor, who at a State ceremony expressed his belief that before many generations had passed away, she would become 'the centre of the Southern hemisphere'—the brightest gem of the southern ocean." The Shrewsbury Chronicle remarks:—"We can come to no other conclusion than that the colony is in a most flourishing condition, that only a small proportion of its resources are at present developed, and that for years to come it seems to offer a field for the investment of capital and a ready avenue for disposing of the surplus labour which at times gluts the European markets."

Other notices are equally laudatory of the prospects of New South Wales, and Mr. R. R. has been fortunate in getting his book so largely and favourably noticed. It came out at a happy juncture, when our extraordinary revenue was drawing the attention of financiers, and when the power of the Government to spend freely was an enthusiastic both to capital and labour to come hither.

The book has also been forwarded to distinguished politicians, some of whom may not disdain to glance at its contents. Her Majesty the QUEEN has accepted a copy, and directed that her thanks should be conveyed to the author. The little pamphlet, which was circulated in America by the Exhibition Commissioners, was greedily applied for in that country, as were also the copies of Mr. ROBINSON'S pamphlet, that had previously remained undistributed. And the information thus dispersed has doubtless had a good deal to do with the great demand there has been on Mr. CAMERON of New York for passages to the colony.

We have reason to rejoice, therefore, not only because we have become greater and richer, but also because we are being recognized everywhere in a manner which is likely to attract population and capital and tend to the realization of that brilliant and prosperous future which is in store for New South Wales—the mother colony of the Australias.

TELEGRAPHIC MESSAGES.

AUSTRALIAN ASSOCIATED PRESS TELEGRAMS.

BARRERJUEE.

The brig which was reported on Tuesday last, and was supposed to be the Marie, is the Hebe, from Newcastle to Sydney. The ketch Ann, for the safety of which fears were entertained, has succeeded in making the port with loss of topmast and some sails.

MUDGE.

The Government has not only acted to the request of the Mudge Turf Club for cheap excursion trains during the races, but also arranged that the telegraph line shall be connected with the course. The weather now is splendid. Feed is already commencing to shoot.

WEST MAITLAND.

We have had a splendid rainfall. It is now clearing up. The races commence on Tuesday next. They are causing much excitement, as the acceptances are very numerous. Over a dozen horses will probably start for the Cup, and about twenty for the Duckenfield Park Stakes. The course is in grand order. Hardly any rain has fallen during the last two days.

BRISBANE.

ARRIVED.—Leichardt (s.), from Sydney; and the Governor Cairns, new pilot cutter, from Falmouth. Business is improving. Prices for some lines are advancing. Dr. O'Doherty will probably be appointed to the Legislative Council.

MELBOURNE.

The Premier, Chief Secretary, Mr. Service, and Mr. John Duffy have been returned unopposed. The denizens of the Collins-street Baptist Church are likely to obtain a London minister of high standing to fill the place of the late Rev. J. Martin. Typhoid fever is rather prevalent just now. The nomination of the Assembly took place to-day all over the colony. There were over two hundred candidates for the eighty-four seats. The weather this morning was very foggy. It was afterwards fine, clear, and cold. Sales of wheat have been made at 7s. 3d. to 7s. 4d. Flour, 11s. in quantity. Currents are selling freely at 3d. in hand. Lined oil is moving off steadily. A hundred quarters of Vinegroves' brandy have been quoted at 7s. 10s. 6d. Malt is very scarce at 4s. 10s. 6d.

TUESDAY, 8th MAY.

STANMORE.

A comfortable Cottage Residence, built of brick on stone, containing 7 rooms, bathroom, and wide hall, pantry, &c., with detached kitchen and washhouse; pretty flower garden in front, with good yard at the rear, and having a plentiful supply of water.

TITLE, TORRENS' ACT.

HARDIE and GORMAN have received instructions from N. HAYLEY, Esq., to sell by public auction, at the Rooms, Bell's-chambers, 175, Pitt-street, at 11 o'clock, on TUESDAY, 8th May, 1877.

That very comfortable and well-built cottage residence, of 7 rooms, &c., known as CAMBRIDGE LODGE, situated almost at the corner of CAMBRIDGE-STREET and TRAFALGAR-STREET, in the prettiest part of STANMORE, and lately occupied by —PEAPES, Esq.

The land has a frontage of 66 feet to TWO STREETS, and fronts the RAILWAY LINE. This is a healthy position, only a short distance from the BUS and RAILWAY, with very pretty views, which cannot be built out, and surrounded by first-class properties. The house is substantially erected, and well adapted for the situation of anyone on the look-out for a good SUBURBAN VILLA.

Inspection is invited. Cards to view from the Auctioneers prior to day of sale.

8th MAY.

TUESDAY, MAY 22.

TO SPECULATORS, TIN MINERS, and others.

POSITIVE UNRESERVED SALE of the whole of the SEVERN RIVER TIN MINE AND PLANT, situated on the SEVERN RIVER, NEAR STANTHORPE, QUEENSLAND, and consisting of 1000 ACRES of FREEHOLD LAND, known to contain large quantities of TIN ORE.

THE RICHEST RUBY TIN ORE.

This property commands a frontage of TWO or THREE MILES on both sides of the SEVERN RIVER, and is within a short distance of the township of STANTHORPE.

THE GOVERNMENT ROAD also passes through direct to WARWICK.

THE PLANT consists of FIRST-CLASS PORTABLE ENGINE and PUMP, MINING IMPLEMENTS generally, MANAGER'S RESIDENCE, ORE BAGS, &c., &c.

TERMS, CASH.

HARDIE and GORMAN have received instructions from the Official Liquidator of the SEVERN RIVER TIN MINING CO. (Limited), to sell by public auction, at the Rooms, Bell's-chambers, 175, Pitt-street, Sydney, at 11 o'clock, on TUESDAY, 22nd May next, The whole of the COMPANY'S LAND, PLANT, &c., &c., of which further particulars will be duly published, and inventory prepared for inspection.

The Auctioneers desire to call the special attention of SPECULATORS and TIN-MINERS to this handsome and positive sale. It is believed that large quantities of this land, abounding in TIN ORE, yet remain to be developed, and which, no doubt, will yield a very HANDSOME RETURN.

THE QUALITY OF THE TIN ORE from this property is a very RICH RUBY, assaying nearly always 75 per cent.

There is always a large supply of WATER from the SEVERN RIVER, which runs through the land, and which receives the DRIFT and ALLUVIUM of the following watercourses, viz.:

QUART POT CREEK

RUELE CREEK

THIRTEEN MILE CREEK

FOUR MILE CREEK

KETTLE SWAMP.

The course of the river is intersected with rocky bars of granite, thus forming a succession of WATERGATES, varying much in extent and depth, but all supposed to contain large deposits of ALLUVIAL TIN.

THE ENGINE AND PUMP were purchased from Messrs. P. N. RUSSELL and COMPANY, of Sydney.

THE WORKING PLANT consists of the usual MINERS' PICKS, SHOVELS, &c.;

THE BUILDINGS are in very good order, comprising MANAGER'S RESIDENCE, ORE HOUSE, &c.

THIS ENTIRE PROPERTY is close to the well-known and very remunerative land known as APPLIN'S MINE, which is returning a very large yield of TIN ORE.

Per fortnight.

In addition to all the advantages enumerated above, it is further believed that the RAILWAY TO STANTHORPE will pass through this estate, and which must necessarily add to the PROSPECTIVE VALUE of this property.

It cannot be denied that, judiciously worked, this property will prove a very remunerative speculation; and the Auctioneers have every confidence in recommending the same to the notice of persons WILLING and COMPETENT to carry out the work.

Further information can be obtained at the SALE ROOMS of the AUCTIONEERS; or from Mr. BENJAMIN HARDAKER, STANTHORPE.

DAY OF SALE, 22nd MAY next.

POSITIVE SALE of the Residue of the unsold ALLOTMENTS in the CAMPERDOWN ESTATE.

TITLE—TORRENS' ACT.

TERMS LIBERAL.

HARDIE and GORMAN have received instructions to dispose of, by private contract, the residue of unsold allotments in the CAMPERDOWN ESTATE, having frontages to University and College streets.

PLAN ON VIEW AT THE ROOMS.

This land is situated between CAMPERDOWN and MISSENDEN ROADS, a short distance off the PARRAMATTA ROAD, and overlooks the UNIVERSITY PADDOCKS and grounds.

WHY NOT BECOME A FREEHOLDER.

TOWNSHIP OF CROYDON.

Allotments payable by EQUAL QUARTERLY INSTALLMENTS, can be obtained on application to

HARDIE and GORMAN.

TITLE, TORRENS' ACT.

The STREETS are all fenced out, and the distance is only TWO MINUTES' walk from CROYDON STATION.

The above is the property of ANTHONY HORDEN, Esq.

NEW POCKET LITHOGRAPHS.

Allotments Sold and Unsold, View from the Land, Local Streets, and The Railway Time Table, can be obtained at the SALE ROOMS, 175, PITT-STREET.

ELLISMER, Esq., on that most charming bay known as KOGARAH (called on the Government maps Townsend Bay).

ELLISMER is situated on the Sydney side of Sans Souci, on the Rocky Point (or Sans Souci) Road, about five miles by a good road from the railway station at Newtown, and on the surveyed line of railway to Illawarra by way of George's River, and within a short distance of Sandringham, and the beautiful bay of KOGARAH BAY. The most magnificent beach, BOTANY BAY, is only a few minutes' ride from the Kogarah Post-office and Sydney.

The South Suburban Railway will bring Ellismere within fifteen or twenty minutes of Sydney.

ELLISMER is 40 acres, with about equal frontages to the Bay and the Sans Souci Road, and is a most desirable property, and is well adapted for a gentleman's residence, or for a country house, or for a country estate. It is not a day's ride from the city, and is a most desirable property, and is well adapted for a gentleman's residence, or for a country house, or for a country estate.

The above valuable block of land is in an elevated position, and in every respect suitable for subdivision into building sites, and is the best in the most HEALTHFUL and POPULAR SUBURB in increasing day.

The Auctioneers beg to call special attention to the sale of this block.
